DATA SCIENCETIST/ANALYST

As an Analyst, I lead data-driven decision-making, oversee data analysis and AI model development, and provide insights to drive business strategy. I ensure robust data infrastructure, collaborate with teams to optimize performance, and maintain data governance and compliance across the company:

- Data Collection
- Data Cleaning
- Data Analysis
- Data Visualization
- Insight generation,

- Supervised machine learning,
- Non-Supervised Machine learning
- Descriptive Analysis
- Predictive and use Knn model

I develops data-driven strategies, organizes and secures data, ensures data accuracy, analyzes data for insights, forecasts trends with predictive analytics, creates visual reports for decision-making, implements AI solutions, educates teams on data tools, ensures compliance with data regulations, and measures the business impact to optimize outcome.
